DIETARY SUPPLEMENT WITH ANTIOXIDANT PROPERTIES

CLARvision is a food supplement based on Laurel and Hyaluronic Acid with antioxidant properties that can prevent the onset of cataract. The action of Laurel maintains physiological levels of antioxidant markers and protects the eye structures from oxidative stress. The antioxidants present in the bay leaf perform a scavenging action of free radicals and inhibit the processes of lipid peroxidation. The formulation enhances the activity of ascorbic acid and α -tocopherol, while reducing the presence of GSSG, H₂O₂ and MDA.
